PORCELANOSA

PORCELANOSA

Diseña tu espacio

El diseño interior es más que planificar la funcionalidad de tu espacio. Escoge el estilo que refleje tu personalidad para crear estancias interiores en las que te encante vivir.

Design your space

The interior design is more than just planning the functional design of your space. Choose an appearance that reflects your personality to create interior rooms in which you love living.

Definición de iconos

Icon definition

	Mate Matt	Acabado superficial de aspecto natural, no brillante.	Natural, not shiny, surface finish.
	Brillo Gloss	Acabado superficial brillante con un alto grado de reflexión a la luz.	Shiny surface finish with a high degree of light reflection.
	Mate-Brillo Matt-Gloss	Acabado superficial con una mezcla de brillo y mate.	A finish mixture between matt and gloss.
	Lustre Luster	Aplicación superficial que dota de brillo a una parte o a la totalidad de la decoración de la baldosa, con el fin de remarcar zonas de relieve, dibujos o formas del diseño de la pieza.	An application applied to the surface which either brings out part or all of the high gloss in the decoration so that the relief, the pattern or the design of the tile is highlighted.
	Texturado Textured finish	Superficie con pequeños resaltes que proporcionan un acabado con relieve suave.	Surface with small protrusions that provide a smooth relief finish.
	Relieve Relief	Acabado con resaltes importantes claramente definidos y que aportan sensación de volumen a la superficie.	Finish with high and clearly defined ridges, providing volume to the surface.
	Destonificado Tone Variations	Las series identificadas con este icono presentan un diseño general destonificado que puede requerir la conformación de paneles lo suficientemente representativos en número de piezas, como para poder apreciar el grado de variación tonal y de aspecto.	Series marked with this icon have a high degree of shade variation. As a result, a board with a tiled surface might be needed to reflect true appearance and shade variation once laid.
	Direccionalidad Directionality	Acabado superficial brillante con un alto grado de reflexión a la luz.	Please have a look the at the back side of the tile for a proper installation. Arrows should point up when fixing the tiles.
	STEX / RAF	Cerámica válida para suelos técnicos de exterior.	Valid ceramic for outdoor technical floors.
	Granilla técnica Technical grain	Aplicación superficial previa de granillas específicas para la serie Stonker, aplicadas con anterioridad a la cocción y que genera una superficie antideslizante con buena resistencia al desgaste.	Previous surface application of specific granules for the Stonker series which is applied prior to the firing process generating a non-slip surface with an optimal wear resistance.
	Necesita rejuntado It needs to be grouted	Los modelos identificados con este símbolo, preferentemente mosaicos y complementos, precisan ser rejuntados en toda su superficie	Models with this symbol (mainly mosaics and complementary tile pieces) need to be grouted across the whole surface.

**Antislip
Non slip**

Textura superficial que minimiza el riesgo al deslizamiento. Acabados suaves que aportan seguridad al caminar.

Surface texture which minimises the risk of slippage. Smooth finishes that guarantee safe steps.

A: Fricción estática normal.
B: Fricción estática alta.
C: Fricción estática muy alta.

A: Normal static friction.
B: High static friction.
C: Very high static friction.

**Tránsito peatonal
Pedestrian traffic**

Volumen de tráfico peatonal que puede soportar un material sin sufrir inestabilidad.

Amount of pedestrian traffic a material can resist without structural failures.

Ligero.
Medio.
Intenso.

Slight.
Moderate.
Hard.

**Valor medio del ángulo de caída:
Total mean value of slip angle:**

$\left[\begin{array}{l} R9 \\ \leq 6^\circ / \geq 10^\circ \end{array} \right]$	$\left[\begin{array}{l} R12 \\ \leq 27^\circ / \geq 35^\circ \end{array} \right]$
$\left[\begin{array}{l} R10 \\ \leq 10^\circ / \geq 19^\circ \end{array} \right]$	$\left[\begin{array}{l} R13 \\ \leq 35^\circ \end{array} \right]$
$\left[\begin{array}{l} R11 \\ \leq 19^\circ / \geq 27^\circ \end{array} \right]$	

Resistencia al deslizamiento.

Muchos fabricantes europeos de suelos, usan ensayos del tipo de la rampa para clasificar sus productos en función del grado de deslizamiento. Estos ensayos se llevan a cabo generalmente, usando la norma alemana din 51130.

Slip resistance.

Many european flooring manufacturers use tests like the ramp test to rate their products according to their slip resistance. These tests are generally conducted using the german standard, din 51130.

El método implica el uso de sujetos que caminan adelante y atrás a través de un suelo impregnado y utilizado como banco de ensayos en forma de rampa.

With this method, a person walks backwards and forwards on an impregnated ramp-type floor used as a test bench. The angle of the ramp is gradually increased until the person slips.

El grado de inclinación de la rampa se va incrementando gradualmente hasta que el sujeto que está ensayando, resbala. El ángulo medio de inclinación al que el sujeto resbala, es utilizado para calcular el ángulo crítico de deslizamiento.

The average angle at which the person slips, is used to calculate the critical angle of slip.

La norma din 51130 utiliza unas botas de seguridad según norma en 345 y aceite de motor como sustancia que impregne la superficie a ensayar.

Din 51130 uses approved safety boots according to standard en 345 and engine oil to impregnate the test surface. Standard, din 51130.

**Resistencia al deslizamiento RD:
RD Slip resistance:**

$\left[\begin{array}{l} SRV \\ \text{class} \\ 0 \end{array} \right] \leq 15$	$\left[\begin{array}{l} SRV \\ \text{class} \\ 2 \end{array} \right] < 35 / \leq 45$
$\left[\begin{array}{l} SRV \\ \text{class} \\ 1 \end{array} \right] < 15 / \leq 35$	$\left[\begin{array}{l} SRV \\ \text{class} \\ 3 \end{array} \right] > 45$

"CTE" Código Técnico de la Edificación.

El Código Técnico de la Edificación, dentro de su documento básico de seguridad de utilización 1 "db su 1 - seguridad frente al riesgo de caídas", define los requisitos que debe cumplir un suelo para poder ser utilizado como pavimento de los edificios o zonas de uso sanitario, docente, comercial, administrativo, aparcamiento y pública concurrencia (excluidas las zonas de uso restringido). Para ello, el pavimento deberá cumplir con un valor mínimo al deslizamiento "RD".

(CTE) Spanish Building Code.

Safety of use" basic document 1 (db su 1 - preventing falls) of the spanish building code (the CTE in spanish) defines the requirements that a floor covering must meet in building or areas used for health related, educational, commercial, administrative or public purposes or for parking (excluding areas of restricted use). To comply, the flooring must achieve a minimum slip resistance (RD) value.

El valor de resistencia al deslizamiento "rd", se determina mediante el ensayo del péndulo descrito en el anexo a de la norma une-env 12633: 2003.

The slip resistance (rd) value is determined using the pendulum test described in appendix a of standard une-env 12633: 2003.

La tabla de la izquierda establece la clasificación de los suelos según su resbaladidad:

The table shows the rating system for flooring, depending on its slip resistance:
